EXTRA CONDENSED LIGHT

For years Matthew Carter wondered why no Latins with Bodoni proportions had been developed, or why no Bodonis had Latin serifs. He solved his problem by drawing Rocky Regular and Bold with italics to fill the gap, then expanded the family with the aid of Richard Lipton. It provides a sharp spot of typographic "color" as signature headletter series for Roger Black's redesign of the *Rocky Mountain News*; FB 2008
